THE THIRTY SECONDS

We're YuDeZign — we manufacture frameless cabinets and closets right here in Houston, in our own plant. Three-quarter-inch plywood, soft-close standard, twenty standard colours and a deeper library. Because we're the actual factory, there's no importer and no distributor between you and the shop that builds your cabinets — and we can price a whole community, not just one kitchen. **What are you working on?**

WE BUILD

- **Frameless only** — European full-access
- Flat-panel (slab) and shaker doors
- Kitchens, vanities incl. **ADA**
- Walk-in & reach-in closets
- Mudrooms, credenzas, coffee bars
- Laundry, offices, media walls
- Multi-family & commercial casework

WE DO NOT BUILD

- **Framed** — we don't build it. **We stock RTA framed**
- Raised-panel doors
- Inset doors
- **Solid-wood shaker** — ours is machined MDF, and you say so before they ask
- Countertops
- A single box taller than **96″**

STANDARD DIMENSIONS

	DEPTH	HEIGHT	WIDTHS

CONSTRUCTION — THE ANSWERS

Box	¾″ plywood · particleboard as a cost-down option
Backs & drawer bottoms	¼″ plywood
Joinery	Cam-and-dowel, 3-in-1 connectors · wall units on a French cleat
Soft close	**Standard** on every door and drawer — not an upgrade
Slides	Full-extension soft-close, **100 lb** ball-bearing
Overlay	**Full** on kitchens & vanities · **half** on closets
Edge banding	1 mm, colour-matched — seals the core, reads as one piece
Finish types	Melamine · laminate · acrylic · paint · RTF
Finish count	**"Twenty standard colours, five in each Style, and a deeper library if you're matching something."**
Hardware finishes	Brushed nickel · polished chrome · matte black

THE FOUR STYLES — SAME BOX, SAME MOTION, DIFFERENT SKIN

Every Style gets the same hardware: DTC soft-close hinge, **six-way adjustable** · slide by box depth: DTC undermount on 21″ / 24″ boxes, KV 8450FM on other depths. **There is no hardware upgrade to sell.**

	WHERE IT FITS	DOORS
Essential	Rentals, spec homes, hardworking spaces	Woodgrain & solid TFL
Signature	Warm kitchens, dens, lived-in spaces	European TFL, deep textures
Reserve	Modern builds, handleless, soft-touch	Super-matte, soft-touch, high gloss
Atelier	Flagship kitchens, media walls, hospitality	Lacquered high gloss & perfect matt

Closets: Everyday → Wardrobe → Dressing Room. Same plant, same hardware, **different board** — particleboard core, some MDF. Plywood = custom lay-up, costs more, adds time.

You are never penalised for saying "let me confirm that and come back to you today." You are penalised for guessing. Our own documents contradict each other on every number below — that is not your problem to solve.

NEVER SAY → SAY INSTEAD

NEVER	SAY
Any production time in days or weeks	"In as little as two weeks, depending on finish and scale. **Your quote carries the committed date** — I won't guess at it."
Any deposit percentage	"Terms are set in your written agreement, and I'll walk you through them before you sign anything."
Any warranty length	"Your written warranty comes with your agreement — let me send you the current sheet."
"We install"	"**Install support.** Every panel is QR-tagged to our app. Installation goes through our partner contractors inside Greater Houston, on a separate detailed install quote."
Any tier, discount or multiplier	"Trade pricing is set per account — let me get an account opened and come back with your numbers."
What anything costs us	Don't answer. "Let me show you where the money actually goes in a cabinet."
"19 mm"	"**Three-quarter-inch** plywood." Inches, out loud, every time.
A 24-hour quote turnaround	"I'll give you a date when I take your dimensions."
That shaker is solid wood	"Machined from MDF — deliberately, so it won't warp or split at the joint." **Volunteer it.**
A job we quoted but didn't win, as a reference	Name **delivered** work only. For scale: "we quote multi-family packages up to fifty-plus units." True, and claims nothing.
Any competitor claim	"**What do you like about working with them?**" — then write it down.
A price from memory	Only the **linear-foot ballpark**. Anything else: the quote, by version number.

ASK THESE — DON'T TALK

- What are you working on right now?
- Who does your cabinets today, and what do you like about them?
- How many homes / units a year is that?
- When do you need cabinets on site?
- Who else has to say yes?
- What's the budget per unit?
- What went wrong last time?
- What would make you switch?

THE QUOTE RULES

- Submit a **complete packet** — a filled Discovery Sheet *is* the packet
- You receive a **versioned** quote — QUO-2026-####
- You present **that version**. Never a number from memory
- You never show what anything costs us

ESCALATE

Anything blocked, live	Deflect → office, same day
Any discount request	Office, before you answer
Over 250 cabinets	**Operations — load check**
Damage or warranty claim	orders@yudezign.com + office

THE THREE ARGUMENTS

vs an import	"No ocean freight, no port delays, no distributor between you and the shop that builds your cabinets. And your replacement door in month eight comes from the same building."
vs a big box	"That's a boxed-in showroom set. We're made to measure — custom widths, custom modifications, twenty standard colours and a deeper library."
vs a local shop	"A trade partner, not just a supplier. One source for cabinets, closets and casework, consistent across every plan you run."
